

GHS Hazard Pictograms

Physical hazards	
<ul style="list-style-type: none"> • Unstable explosives • Explosives • Self-reactive substances and mixtures • Organic peroxides 	
<ul style="list-style-type: none"> • Flammable gases, aerosols, liquids, solids • Self-reactive substances and mixtures • Pyrophoric solids, liquids • Self-heating substances and mixtures • Substances and mixtures, which in contact with water, emit flammable gases • Organic peroxides 	
<ul style="list-style-type: none"> • Oxidizing gases, liquids, solids 	
<ul style="list-style-type: none"> • Compressed gases • Liquefied gases • Refrigerated liquefied gases • Dissolved gases 	
<ul style="list-style-type: none"> • Corrosive to metals • Skin corrosion • Serious eye damage 	
Health Hazards	
<ul style="list-style-type: none"> • Acute toxicity (oral, dermal, inhalation) 	
<ul style="list-style-type: none"> • Acute toxicity (oral, dermal, inhalation) • Skin irritation, eye irritation • Skin sensitization • Specific target organ toxicity following single exposure • Respiratory tract irritation 	
<ul style="list-style-type: none"> • Respiratory sensitization • Germ cell mutagenicity • Carcinogenicity • Reproductive toxicity • Specific target organ toxicity following single exposure • Specific target organ toxicity following repeated exposure • Aspiration hazard 	
Environmental Hazards	
<ul style="list-style-type: none"> • Aquatic environment (acute/chronic) • Environmental toxicity
